FSP Token Price Projection

Few Factors :-

1. Low Supply of Token in market
- Token locked (Activity Based released)
2. Buy Back & Burn Mechanism
- 10% Sales proceed used
3. Secondary Market
4. Price difference
- Placement Price Cheaper
- Example : 1 USDT vs 1.8USDT (market)

SCF 3.0 Analysis

MARKET ANALYSIS

With the 60m address since 1.0, Even 0.1% active, the market is HUGE

TECHNICAL ANALYSIS

With the control of Token Supplied in the market, Token price will appreciate especially when Bull Run coming in 2024.

FINANCIAL ANALYSIS

POSITIVE Cash Flow for company, Huge gain for Marketeers as well as those early bird that acquired the token at the initial price.

ECONOMIC ANALYSIS

Crypto Economy is expecting to experience a Bull Run . Is already started with BTC raise from 25k to 35k now !

ECOLOGICAL ANALYSIS

Finswap is the key Eco-System of SCF Chain. Increasing adoption rate for the FinSwap Platform Token is best option to promote the Public Chain
